PERSONAL PROFILE

I am a Multimedia Designer, and a recent graduate of BCIT's New Media Design and Web Development Program. My expansive range of work experience has prepared me to think critically, prioritize time management, organization, and practicing effective communication skills. I integrate problem-solving and creativity to produce unique and functional designs, while exploring and implementing innovative ideas.

PROJECTS

QSD Hackathon 2023 - Truck Fuel Modelling System (TFMS)

UI Design, Graphic Design, Web Design | BCIT Burnaby, B.C | January 6-8th 2023

TFMS was a project for a Hackathon using datasets related to copper mining. Our team created an education-based fuel visualization tool for kids, that helps with calculating optimal fuel consumption while taking into account several mining factors throughout the haul cycle.
